## INTERESTS

- Web 3.0
- Blockchain
- Artificial Intelligence

## PROFESSIONAL EXPERIENCE

### Software Engineer (Team Lead)

Netixsol | Aug 2024 - Present

- Promoted to position of Software Engineer due to excellent performance, and competitive technical and logical skills.
- Working on multiple projects and training juniors as Team Lead.

### Associate Software Engineer

Netixsol | Sep 2023 - July 2024

- Developed **skillMatch**, a recruiting product as a main **backend developer** and lead the project.
- The product is designed to streamline the hiring process for companies and candidates including features tools for job postings, application tracking, and candidate management, providing a seamless experience for both employers and job seekers.

### MERN Stack Intern

Netixsol | June 2023 - Aug 2023

- I worked on various projects, including building RESTful APIs, creating dynamic user interfaces, and implementing backend services.
- Through my internship, I gained a deeper understanding of modern web development practices and honed my skills in the MERN stack.

### Junior React Developer

GamicaCloud | 2022-2023

- Developing and maintaining web applications using React.js and other related technologies.
- Implementing responsive design and ensuring cross-browser compatibility.
- Developed many designs using tailwind, material UI, Bootstrap etc
